Article Designation Letter

VOLUME _____

TITLE OF PAPER: _____

| AUTHOR'S NAME(S) | Ext. | Section | Mail Stop | Cognizant Alternate | Ext. |
|------------------|-------|---------|-----------|--|-------|
| (1) _____ | _____ | _____ | _____ | _____ | _____ |
| (2) _____ | _____ | _____ | _____ | If only one author is listed, a cognizant alternate should be designated. The alternate may be called upon to answer editorial questions and review galley proofs in the absence of the author. Although the alternate should be technically informed regarding the article, he should not be regarded as an author for he will not be credited as such. | _____ |
| (3) _____ | _____ | _____ | _____ | | _____ |
| (4) _____ | _____ | _____ | _____ | | _____ |

In the case of multiple authors, please place an asterisk before the name of the corresponding author.
This author will be called upon to answer editorial questions and to review galley proofs.

NEW TECHNOLOGY INFORMATION

If this material describes a possible item of new technology, it should be reported by the author to the JPL Intellectual Property Group. New technology is any invention, discovery, innovation, or improvement, whether or not patentable. It includes scientific discoveries, scientific or technical computer programs, and new or improved products, materials, processes, machines, apparatuses, devices, fixtures, tools, etc.

The referee's signature confirms that the paper is technically sound and has archival value:

The author's signature confirms that the paper was submitted to the Unlimited Release System. The clearance number will be provided when it is obtained:
